PRODUCT SPECIFICATION REPORT

ZEP FORMULA 1365™

Liquid paint and varnish remover

DESCRIPTION

A highly active, brush-on type, liquid paint and varnish stripper containing a powerful blend of chlorinated solvents, with acid phenolic activator system, corrosion inhibitors, emulsifiers, and evaporation inhibitors.

FEATURES

- Extremely fast acting
- Thixotropic
- Non-Flammable
- Water rinsable

BENEFITS

- Completely removes most industrial films within a matter of minutes. Eliminates the need for scraping.
- Flows and spreads easily, yet clings to vertical surfaces.
- Has no flashpoint and is non-combustible.
- Self emulsifying, flushes off completely with water.

APPLICATIONS

Recommended for use in paint shops, maintenance shops, equipment refurbishers, trucking firms, chemical haulers, sign companies, automotive rebuilders, and metal fabricators. Effective in removing the following finishes: alkyds, aluminum paint, baked enamels, baked polyisocyanates, epoxies, epoxy-polyesters, oil-based paints, polyesters, polyurethanes, primers, and varnishes.

Note: Not for use on wood, plastics or fiberglass.
